The Satanic Aim of the United Nations, World Economic Forum & Great Reset (Paperback)

By My Two Cents

This is an in-depth discourse on the diabolical origin and objective of the wave of the sinister that we can all sense is spreading across the world, which has --by no mere coincidence-- noticeably accelerated and gathered force since the outbreak of the pandemic in 2019.

This book examines, in particular, the dark spiritual ideology guiding the globalist agenda of the United Nations and the role that its crony organization, the World Economic Forum, is performing in carrying out its aim --with the cooperation of leaders in the political, religious, medical and corporate spheres-- via the Great Reset, of setting the stage for a hellish state of totalitarian world dominion under a singular authority.
